DETAILED ACTION

1. This communication is in response to applicant's 09/13/2000 in the application of Cain et al. for a "System, device, and method for receiver access control in a multicast communication system".

Election/Restriction

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-61 drawn to the Bridge or gateway between networks: This subclass is indented under subclass 400. Subject matter having a device for interconnecting two or more networks at a media-access level of a data-link layer. For a bridge which interconnects two or more bus networks wherein the buses have a plurality of terminals connected thereto. For a bridge which interconnects two or more closed transmission path network having a plurality of terminals connected thereto, classified in **class 370, subclass 401**.

Art Unit: 2665

II. Claims 62-80 drawn to the method for a pathfinding or routing in communication system. Subject matter including an apparatus or a technique for locating a path through a switching network from a source to a destination. This subclass includes techniques for reorganizing existing connections to make room for new connections. Subject matter wherein a link through a multiplex system or a connection established through a multiplex switching network is monitored for circuit continuity, classified in **class 370, subclass 351**.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II which has separate utility such as having details for locating a path through a switching network from a source to a destination, which does not include the particular listed of the invention I, such as details of methods or apparatus for a bridge which interconnects two or more closed transmission path network having a plurality of terminals connected. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 2665

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37.CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Any response to this action should be mailed to:

Commissioner of Patents and Trademarks

Washington, D.C. 20231

or faxed to: (703) 308-9051, (for formal communications intended for entry)

***Or: (703) 305-3988 (for informal or draft communications, please label
"PROPOSED" or "DRAFT")***

Hand-delivered responses should be brought to Crystal Park II, 2121 Crystal Drive,
Arlington, VA., Sixth Floor (Receptionist).

Art Unit: 2665

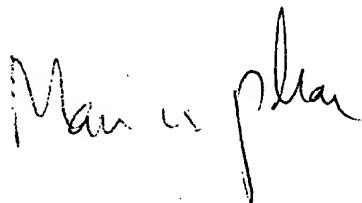

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Man U. Phan whose telephone number is (703) 305-1029. The examiner can normally be reached Monday through Friday from 6:30 am to 3:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Huy Vu, can be reached on (703)308-6602. The fax phone number for the organization where this application or proceeding is assigned is (703)305-3988.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 305-3800/4700.
